

FAST DASH

AMAZON DELIVERY SERVICE PROVIDER

BACKGROUND

Fast Dash was consistently having to take delivery vehicles out of service to get the brakes replaced, costing them time, money, and productivity.

THE SOLUTION

NuBrakes mobile brake repair service has provided Fast Dash with more affordable repair services than going to the shop, increased the up-time of each delivery vehicle, and simplified the maintenance management of the fleet.

THE RESULTS

- ▶ FastDash saves **~15% per repair** when using NuBrakes, compared to their previous shop provider.
- ▶ FastDash estimates that they save **\$1,000 per day** when a vehicle is not pulled out of production due to repair needs.
- ▶ FastDash can access inspection/repair history, and billing online, anytime.

OUR PROCESS

- 1 Inspection Report On All Vehicles**
You'll receive a complete inspection report on each vehicle's brakes.
- 2 Schedule In Advance Or On-Demand**
Schedule repairs in accordance with your budget and operations, or repair today.
- 3 We Repair Your Vehicle(s) On-Site**
Our certified techs repair your vehicle right where it's parked using premium parts.
- 4 Online Billing & Management**
Manage your scheduling, payments and repair history online with our fleet management software & integrations.

FROM THE OWNER

“Working with NuBrakes has simplified our brake repair process, enabled us to maximize vehicle uptime, and ensure the safety of our drivers at all times.”

- Kimani, Fast Dash
